Signed P Weedon Dated 22 / 9 / 11

This sheet is designed to help carers keep a record of the type and size of sling needed by an individual client, and how it should be applied. It is not intended to replace proper supervision and training in relation to the arrangement, fastening, range of choice available (including but not limited to the range of choice available in relation to sling size) or use of slings in medical or nursing establishments. It is important that you always follow the policies and procedures of your employer when applying a hoist sling.
